Solubility in water: Soluble

Flash point: 130 °F

Storage stability: Keep away from strong oxidizers

Flammability: Slightly flammable

Packaging: 4x1 gallon Case

- Properties are typical and subject to usual manufacturing tolerances.

BIO LOTION HAND SOAP is a rich viscous hand cleaner made from the finest oils available. It contains effective grease and dirt solvers, skin emollients, and fragrance. Although a thorough skin cleanser, this lotion is extremely mild. Repeated use enhances skin softness and texture, rather than causing dermatitis or other skin disorders. In use with water this viscous liquid generates a rich, thorough cleansing lather. It lifts and removes grease and dirt from hard to reach area such as crevices around knuckles and under fingernails.

BIO LOTION HAND SOAP is ideal for use by personnel in the food and health industry. It meets Today's high standards of sanitation. This lotion does not clog dispensers as other hand soaps do. It stays fresh and free flowing in the dispenser tank and is always ready for immediate use. Refer to the attached SDS for precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
