

MILDEW RESISTANT COATING

CONTROL II

FEATURES

- Acrylic polymer carrier with an active Carbamate additive
- Acts as a long lasting surface protecting coating
- Does not affect painted surfaces
- Flexible film formation
- Fast drying
- Water based with no strong odor

PROPERTIES

Appearance: Milky white liquid with no particular odor

Boiling point: 100 °C

Specific gravity: 1.01 gr/cc

Non volatiles: 2-5 %

Solubility in water: Total

Chemical type: Carbamate

Storage stability: Keep away from direct sun light and Acid products

pH of liquid: 8-9

Flammability: Non-flammable

Packaging: 4 x 1 gallon Case
12 Qt. Case
5 gallon Pails

CONTROL II is a Carbamate formulation that combined with a polymeric compound, forms a thin clear film that resists organic material growth, mold and mildew on hard and soft surfaces, including fabrics, walls and furniture. Can be used inside air conditioner ducts and can be added to acrylic and other water based paints. Apply with spray bottle, polysprayer, brush or rolled on clean surface to be treated, allowing sufficient time to dry. Do not rinse. Avoid contact with eyes. Refer to the label and attached SDS for additional instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
