

REFRIGERATION CLEANERS

FILTER CLEANER WITH ANTIBACTERIAL

FEATURES

- Performs as a heavy duty degreaser
- Cleans all types of plastic and metal reusable filters free of grease, oils, dust and dirt
- Contains rinse aids and mold resistant additives
- Easy to apply and very easy to rinse
- Environmentally friendly
- Non flammable
- Safe to use
- Does not affect painted surfaces
- No strong odors

PROPERTIES

Appearance: Low viscosity liquid with clear green color and no particular odor

Flash point : Non flammable

Specific gravity: 1.02 gr/cc

Non volatiles: 15-16 %

Solubility in water: Total

Chemical type: Alkaline degreaser blend

Storage stability: Keep away from direct sun light and Acid products.

Boiling point: 100 °C

Packaging: 4x1 gallon Case
5 gallon Pails
55 gallon Drum

- Properties are typical and subject to usual manufacturing tolerances.

FILTER CLEANER is a refrigeration equipment cleaner specially formulated to have a very fast penetrating power that effectively removes dirt without the need for heavy brushing or high pressure washing. It is the ideal option when a rapid job is needed and low water usage is a must. Use undiluted or mixed 1:1 with water for light duty applications or periodic cleaning.

FILTER CLEANER can also be used to clean grids, vents and frames made of different plastics and metals. Apply with spray bottle or polysprayer on surface, allow to act for few minutes. Wipe clean with cloth or brush if necessary, then rinse lightly with water or air flow and allow to dry. Avoid contact with eyes.

Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
