

ADHESIVES AND BINDERS

MULTIPURPOSE ADHESIVE SPRAY

FEATURES

- Multi-surface bonding
- Ideal for binding wood, paper, cardboard, leather, fabric, rubber, plastics, metals.
- Binds most materials, similar or not
- Fast aggressive tack
- Fast drying with high bonding strength
- No chlorinated solvents
- Easy to use aerosol, non web spray

PROPERTIES

Appearance: Aerosol cans

Boiling point: 212 °F

Specific gravity: 0.85 gr/cc (liquid)

Chemical type: Solvent base rubber solution

Solubility in water: Not soluble

Storage stability: Stable for 12 months under normal conditions. Solvent based spray

Flammability: Extremely flammable

Packaging: 12x 13 oz cans case

- Properties are typical and subject to usual manufacturing tolerances.

MULTIPURPOSE ADHESIVE SPRAY is a blend of rubber copolymers and is one of our top line binder adhesives. It is fast drying, and fast curing; acts at room temperature, and is an easy to use non web spray.

Just apply **MULTIPURPOSE ADHESIVE SPRAY** on both sides to be bonded, wait a minute and then press tight together.

When applied, it forms a regular film that binds most materials together. Ideal for binding wood, paper, cardboard, leather, fabric, rubber, plastics, metals. Binds most materials, similar or not having a fast aggressive initial tack. It does not use chlorinated solvents, so it does not harm the ozone layer.

Keep away from excess heat and open flames. Refer to the label and SDS for additional instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
