Solubility in Water: Suspends in water

Flammability: Non-flammable

Packaging: 25 lbs pails

BIO-DUMPSTER is a novel product that contains natural ingredients that repel bugs and insects. This formula also contains a blend of selected organic ingredients that are activated when they come in contact with moisture and organic matter to eliminate malodors. This product is ideal for use in trash cans, dumpsters and other containers where insects dwell and where malodors accumulate.

To use, sprinkle generously on the bottom of the container when empty and after layers of garbage have been added. Repeat after each service and keep lid closed. Refer to the label and attached SDS for additional instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by Chemtron.
