REFRIGERATION CLEANER

FREEZER CLEANER

FEATURES

- Solvent base cleaner freezers and refrigerator's interiors
- Cleans all types of plastic and metal surfaces
- Easy to apply and very easy to rinse
- Can be used in very low temperature environments, as it does not freeze
- Low odor, low foam, and safe to use
- Fast drying
- No strong odors
- Contains rinse aids and mold resistant additives
- **Contains ingredients listed on the EPA's Safer Choice Program**

PROPERTIES

Appearance: Low viscosity liquid with no color and solvent odor

Flash point : 54 ºF
(Flammable liquid)

Specific gravity: 0.95-1.00 gr/cc

Non volatiles: 15-16 %

Solubility in water: Soluble

Chemical type: Solvent degreaser/cleaner, neutral pH

Storage stability: Keep away from direct sun light and open flames. Always store container closed.

Boiling point: 198 ºF

Packaging: 4 gallon Case
5 gallon Pails

- Properties are typical and subject to usual manufacturing tolerances.

FREEZER CLEANER is designed to clean parts, floors and walls that are inside the refrigeration equipment. It dries quickly and leaves no residue. Its unique solvent combination produces a fast penetrating power, effectively removing dirt and soil without the need for heavy brushing or rinsing.

Use **FREEZER CLEANER** undiluted, applying it with a spray bottle or polysprayer on all surface areas to be cleaned. Allow to act for few minutes, then wipe off or blow with air to dry. Rinse with water if no freezing is anticipated and no mechanical or electrical damage is foreseen. Use also on casing of the freezer, on stainless steel, chrome, copper, aluminum, and plastics. Avoid painted surfaces and open flames. Avoid contact with eyes. Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by Chemtron.
