WEED CONTROL NON-SELECTIVE WEED KILLER

FEATURES

- For areas where vegetation is to be controlled without soil sterilization
- Non-selective; kills all vegetation on contact
- No residual action
- Inactivated on contact with soil
- Dual purpose; for terrestrial and aquatic plant life

PROPERTIES

Appearance: Transparent yellow liquid with slight, detergent like odor.

Boiling point: 212 °F

Specific gravity: 1.00 gr/cc

Non volatiles: Not Determined

Solubility in water: Soluble

Flash point: 124 °F

Storage stability: Keep away from high temperatures and open flames

Flammability: Slightly Flammable

Packaging: 4x1 gallon Case

- Properties are typical and subject to usual manufacturing tolerances.

NON-SELECTIVE WEED KILLER can be used to control most weeds for an extended period of time on non-cropland areas such as loading ramps, fence rows, railroad sidings, storage yards, parking lots, around buildings and industrial plant sites.

Do not apply **NON-SELECTIVE WEED KILLER** to areas where the roots of desirable plants such as trees or ornamental shrubs will come into contact with it, as injury may occur. Do not use on lawns, driveways or similar areas. Do not contaminate domestic water or irrigation water and keep from contact with fertilizer, insecticides, fungicides and seeds. Handle Product with care.

Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by Chemtron.
